➡ The checkout and checkin point for this lab is the MSU Map Library Service counter located in the main library’s west wing, room 308.

Using the Equipment

Computer
The computer is a regular campus Windows image computer which requires login with a valid MSU NetID and password.
The Control Unit on the top of the Tech Cart controls all the equipment in the room.

Projector
To display the room’s computer onto the screen, press Display “On,” then select the device you wish to have projecting onto the screen. “PC” refers to the computer workstation in the room.

Connect a Laptop
The Tech Cart has a VGA cable and a HDMI cable. A Mac/VGA converter is available for checkout at the Map Library Service Counter.
Connect your laptop, then press the “VGA Laptop” button or the HDMI Laptop” button on the Tech Cart, depending on which cable you used for your laptop.

Document Camera
The Document Camera is probably already on, though there is a large round power button you can press. The Document Camera can project onto the screen if you press the “Doc Cam” button on the Controller. Turn the black dial to adjust Zoom. Press in the button on the black dial to adjust focus.

Sound
The sound from the lab computer or from your laptop can only be heard when that device is chosen on the Tech Cart Controller. Adjust sound using the Volume dial on the Control Panel.
A clip-on portable microphone is available for checkout from the Map Library service counter.
