

A sweet tooth.

Dr. HAND'S

REMEDIES
FOR
CHILDREN

Something from

GENERAL MASTER-WORKMAN,

T. V. POWDERLY

To whom it may concern :

I have known Dr. D. B. Hand personally and professionally for seventeen years. He is one of the leading and most successful physicians in northeastern Pennsylvania. I take pleasure in saying that his "Remedies for Children" are exactly what they are represented to be. Throughout northeastern Pennsylvania they are household necessities, and where they are once used they will be appreciated and kept for future use.

Very truly,

T. V. POWDERLY.

Dr. Hand's Remedies for Children are **Colic Cure**. This instantly relieves a babe of accumulated wind in the stomach and bowels, quiets the nerves and gives peaceful sleep. Use it, mothers, in place of stupefying syrups, paregoric, and cordials.

The baby is teething, its gums are feverish and swollen, its pitiful moans almost break your heart. An application of **Dr. Hand's Teething Lotion** to the gums gives it instant relief.

Suddenly, in the night, is heard the "once heard, never forgotten" cough and rattle of the croup. Help must be instantaneous. The effect of **Dr. Hand's Cough and Croup Medicine** is prompt and satisfactory every time.

Your child becomes constipated; pills it cannot take, and castor oil is not only a horrid dose, but it leaves the bowels constipated. Give them **Dr. Hand's Pleasant Physic**, which leaves the bowels in an open, toned condition. These with my other four remedies, **Diarrhoea Mixture, General Tonic, Chafing Powder, and Worm Elixir** are household necessities.

A valuable book on the Care and Diseases of Children wrapped around each bottle. Price, 25 Cents Each.
